

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

A CATALOGUE
OF
SANSKRIT MANUSCRIPTS
EXISTING
IN OUDH FOR THE YEAR 1881.

COMPILED BY THE ORDER OF GOVERNMENT, N.-W. P. AND OUDH,

BY

PANDIT DEVI PRASÁDA,

HEAD PANDIT OF THE SANSKRIT PÁTHSALA, AYODHYA.

ALLAHABAD:

PRINTED AT THE N.-W. P. AND OUDH GOVERNMENT PRESS,

1882.

1961

THE UNIVERSITY OF CHICAGO

PHYSICS DEPARTMENT

CHICAGO, ILLINOIS

RECEIVED

1961

REPORT BY PANDIT DEVI PRASAD, THE COMPILER.

My visits during the last year extended to the districts of Fyzabad, Unao, Lucknow, Bara Banki, Rae Bareli, Partabgarh, Sultanpur, Hardoi, comprising a journey of 4,646 miles by rail, and 1,525 miles by dâk, thus making the distance travelled 6,171 miles. The expenditure on account of travelling and eleven halting allowances amounted to Rs. 827-13.

2. During the year under review 202 new manuscripts were discovered—their distribution under the different heads will be found in the statement hereto annexed. Only a few of these are such as were entered in previous catalogues, the rest having all been entered for the first time.

3. Of the libraries inspected by me five are very important ones. The library of Govind Prasada of Lucknow, though a very large one, does not contain any large number of valuable and rare manuscripts. The libraries of Mahants Chelan Das and Gopal Das, and Ram Saran Das Shankar in Fyzabad, and Pandit Bhandu Datt of Unao, are both large and full of rare and valuable manuscripts.

4. During the year, a copy of the Veda Bhâsya of Ubbhatta for Government was completed, and copies of Nidâna Sûtra, Anupada Sûtra, and Nirukta Pûrvârdha and Nirukta Uttarârdha, works bearing on the Sâma Veda were made out for Dr. Thibaut of Benares.

5. I take this opportunity to bring to your notice the several inconveniences and obstacles to the progress of the discovery of manuscripts, arising out of the nature of the work, the kind of men with whom I have to deal, and the conditions as to time, &c., under which my services can be utilized. The owners of manuscripts being generally men unaccustomed and sometimes averse to correspondence, I can never be certain that I should find the owner of a particular library on my going to his house. Even when I can find him at his house, it is difficult to induce him to submit his library to inspection, the people of these provinces being proverbially jealous of letting anybody into their secrets and a knowledge of their valuable books, in which they claim a sort of monopoly. In a great many cases indeed, I have to resort to the aid of district authorities who, I am happy to say, render me much assistance, and use their influence in this behalf. Sometimes even when the consent is obtained the owner has no time to allow his library to be inspected, being engaged in some urgent and pressing business, and, with only five days at a time, not being able to afford to wait, I have to come back no better than I went.

There is a library, the joint property of a number of men at Badarka in Unao, having a fine collection of works on the same Veda; and though I went there four times I was unable to inspect it, with all the assistance the Tahsildar could render me, all the owners never assembling. Pandit Maharaj Narain, Extra Assistant Commissioner, Unao, has, however, promised that next time I went there, he would have the library opened to me. To procure a part of the manuscript of the Veda Bháshya of

Ubbhatta from Lakeshwar of Baziganj, in Hardoi, I had to go there no less than five times before I succeeded.

6. From inquiries made privately by me of Tahsildars, the Pandits and people generally, I learn that in the districts of Sultanpur, Partabgarh, and Rae Bareli there is a large number of libraries containing rare and valuable manuscripts. The district Bahraich has not yet been fully examined. It is an out-of-the-way place, having no facilities of communication with the adjoining districts, and, from what inquiries I have been able to make, it seems that libraries are widely separated from each other. Under these circumstances it will be necessary to devote one entire month to it before anything can be done.
